

HOW TO EVALUATE COURSES FOR TRANSFER CREDIT 2nd Degree

- The UNC course numbers for the science prerequisites are:
 - BIOL 252 – Anatomy
 - PHYI 202 – Physiology
 - MCRO 251 or 255 – Microbiology
 - STOR 151 or 155 – Statistics
 - PSYC 101 – Psychology 101

Science Prerequisites:

- The general rules* are:
 - **Anatomy**
 - Should be a HUMAN ANATOMY course of 4 or more hours
 - A&P I usually transfers as long as it is 4 or more hours or has a separate lab with its' own grade
 - **Physiology**
 - Should be a HUMAN PHYSIOLOGY course of 4 or more hours
 - A&P II usually transfers as long as it is 4 or more hours or has a separate lab with its' own grade
 - **Microbiology**
 - Must have a lab component
 - The course description should be similar to “a course that focuses on the structure, biology, and genetics of microbes in relation to human disease and the immune system.”
 - **Statistics**
 - Often Business Statistics, Psychological Statistics, or basic statistics from other disciplines can transfer.
 - The course description should be similar to “an introduction to statistical reasoning, including sampling, elementary probability, statistical inference, data analysis, and correlation & regression”
 - **Psychology 101**
 - The course title should be “General Psychology” or something similar
 - The course description should be similar to “a survey of the major principles of psychology and an introduction to scientific modes of thought about behavior”

US Diversity or Global Issues requirement:

- Reference the Undergraduate Bulletin <http://www.unc.edu/ugradbulletin/>
 - US Diversity Courses begin on page 38
 - GI courses begin on page 42
- Refer to the Document entitled “Determining the US_GL Requirement”
- * **These guidelines do not assure transfer credit. If you are still uncertain after reviewing the guidelines, you may request that the appropriate academic department evaluate your course for transfer credit. Most departments require a course syllabus and course description in order to make the evaluation. Contact the specific department for more information on their procedure.**
